

KUFA annual report 2006

Also in the year 2006 we received again creative Unterstützung, among other things from the Rudolf Steiner School and generous donors from Germany and Afghanistan.

Wiedersehen in Kabul

Our largest request, the financing and the further enterprise of the orphanage in Kabul, were secured owing to this assistance. Even if the progress at the development of the training centre belonging to the mechanism did not progress in the measure, as we had wished ourselves that, we could nevertheless already take up computer instruction for the children and young people.

After the daily visit of a national school the children in our mechanism receive educational support and assistance with the homework. This offer is to be extended now by speaking and work instruction.

Pupils of the fifth class of the main and six-form high school old office in peace castle packed packages with stationery and Kinderspielzeug since Easter always 2006 again, which them " under the slogan; Children help Kindern" to the German Federal Armed Forces to Darmstadt sent. From there out the relief supplies with the army postal service came to Kabul, where Marko Danzer of the German message distributed them in the orphanage. On a visit of Germany it arranged its impressions of Afghanistan in a dia. show for the pupils. The Fünftklässler experienced in such a way from first hand that its donations arrived and for the children at Kabul a large assistance represent.

Kinder begrüßen die KUFA-Delegation am Flughafen

Verteilung der Spenden durch einen Mitarbeiter der Deutschen Botschaft Kabul

In the spring 2006 a delegation of KUFA registered association traveled with the popular Afghan singer Farhad Darya to Kabul. Cause of the journey was apart from a visit of the woman and orphanage of KUFA in Kabul a press conference, which should be held with Darya in the orphanage and from which we further support in the country promised themselves. Besides a new building, in which an education place for young people is to develop, should be inaugurated.

The supervisor locally, Hannsgeorg Preuss, actually managed it that the area for the

press conference was completely again painted, the garden with flowers bepflanzt and sufficient chairs for the guests ready stood.

Farhad Darya auf der Pressekonferenz

Rahman Nadjafi im Waisenhaus

The interest of the media was largely, finally kept "Meister" the popular Afghan music Farhad Darya maximum personally this press conference off.

Positive result of this medium appearance was among other things a donation at height of 10.000 US\$ and 10 computers of an Afghan businessman. The PC's are to be used for the computer training courses of the children and young people.

In Kabul the KUFA coworkers made themselves a picture of the Bauvortschritten at the new building of the orphanage. The high point was the again established building, in which speaking, handicraft and computer instruction were to be given. It has two floors and an effective area of altogether approx. 400 qm².

In the orphanage some personnel changes resulted. Thus Mrs. Nadera, the past chief of the mechanism was replaced, of Dr. Abdullah Rashid. Mr. Rashid is initial member of KUFA and in Cologne resident, and lives at present in its homeland Afghanistan. Managing director is Mr. Ibrahim, who grew up in an orphanage.

Kinder vorm Waisenhaus

Beyond that work meanwhile three teachers, two gardeners and an office strength in our orphanage. The monthly costs of maintenance and structure of the mechanism averaged last year 2,600 €.

Also 2006 reached us many smaller and larger donations, which did not only prepare much joy for the inhabitants of the orphanage, but also crucially to the continuance of

the project contributed. For this assistance we thank you of whole heart and hope,
also in the coming year of engaged organizations institutions and private people to be
supported!

grateful greetings
the team of KUFA e.V.
