

## KUFA e.V. annual report 2007

KUFA registered association quite obtained successes in the year 2007 despite the difficult situation in Afghanistan. For the woman and orphanage in Kabul two teachers could be adjusted, be given the computer and English courses with your assistance. Girls and boys participate together in instruction.

The moreover work in the project meanwhile one office strength, a woman for the nightshift, two gardeners/caretakers and a guard. The salary for all employees together amounts to 640 \$ per month.

A further success is the independence of women, who can lead now a certain life. After with KUFA registered association one helped to the women, they could open a baker's shop in Kabul.

Special support received KUFA registered association among other things from the NDR and Jörg Pilawas „Märchenquiz“, from whose profits non-profit projects profit: Nina Hagen, screen lady of KUFA, won 10,500 euros for KUFA, for which we thank you completely cordially!

Just as large thanks go at all the organizations and private people, which supported KUFA last year with creative actions. As for example the Rudolf Steiner School cold churches, whose respected class on a road collection over 700 euros at donation funds gathered. With the money teaching materials for needy pupils of the Deh Kepak Mädchenschule were acquired with Kabul.

Deh Kepak Mädchenschule**

KUFA founder Rahman Nadjafi was lent on the annual general meeting of the society for threatened peoples in September 2007 the honorary membership. Beyond that we received a generous donation from the GfbV.

Since end of the yearly several families in Kabul receive financial support also outside of the woman and orphanage from KUFA registered association beneficiary of this assistance are primarily women, who live without husband with their children in often very difficult conditions. A condition for a regular support is that at least one child from the family visits daily the school.

The families receive first monthly 20 dollar. Momentarily four families take this support up. KUFA coworker Khalid Ghanizada distributed beyond that gifts in kind in the form of warm clothes and covers to the families.

Objective for the year 2008 is the development of instruction and the admission of further children and young people (also from the environment), in order to make for them possible training. KUFA registered association would like to concentrate in the year 2008 more strongly on the aspect of education, in order to be still more effectively helpful in independence. Unfortunately the financial means were missing, in order to open the planned Tischlerei in the year 2007. Likewise only 5 of planned 20 computer places could be furnished.

We all wish us for the future a peaceful and free Afghanistan, and that again more humans and fantastic landscapes this beautiful country with its friendly inhabitants can visit. It is worthwhile itself, because the majority of the Afghans is very hospitable and cordial actually.

KUFA registered association thanks you for your attention and support. We need also further your assistance, in order to transform the bad headlines from Afghanistan into

good. In the name of KUFA registered association and the inhabitants of the woman and orphanage we wish you everything a good year 2008 as well as peace and love in the heart.

grateful greetings  
the team of KUFA
